Bahawalpur, Pakistan

Frontend Developer *Hur Tech*

As a frontend developer at Hur Tech, I build responsive and high-performance web applications using React.js, Next.js, Tailwind CSS, and JavaScript. I focus on creating modern, user-friendly interfaces, optimizing performance, and ensuring seamless user experiences. My role involves developing scalable components, integrating APIs, and implementing best practices for clean and maintainable code.

Projects

Recovery Circle

At Hur Tech, I developed the Recovery Circle platform using React.js, Next.js, and Tailwind CSS. I integrated Zoom for virtual meetings and Stripe for secure payments, ensuring a seamless user experience for scheduling and transactions.

CRM based in Canada

I developed a CRM system using React.js, Next.js, and Tailwind CSS, designed to streamline customer management and business operations. The platform includes lead tracking, task management, and real-time data insights, with Zoom integration for meetings and Stripe for secure payments, ensuring a seamless and efficient user experience.

Education

01/2021 – 02/2024
Bahawalpur, Pakistan

BS Computer Science *The Islamia University of Bahawalpur*
